

“Enriching Your Life”

Over the decades, The Peninsula learned that guests contribute an essential defining factor of The Peninsula Hotels. The Peninsula has welcomed generations of families, and they, in turn, have explored Peninsulas around the world as they travel for business and leisure, finding comfort in the assurance of The Peninsula standards. This assurance led The Peninsula to develop a theme that would further define not only its guests’ experiences, but those of their friends, family and the community they reside in. “Enriching Your Life” provides guests and those important to them experiences that enrich their lives through healthy eating, caring for body and mind through wellness programs, learning new facts and skills through cultural and cooking programs, celebrating special occasions, enjoying quality family time, and raising funds for community charities.
